AAEOY SPEAKER SERIES

5

PM. PST

Presentation: 5G – Perfect Collision of
Mobile Communication and SDN

Interview: Personal Story
– A Journey from Musician to
Technology Executive

Q & A

We live in a world where accelerated innovation is changing the industry landscape and our lives at an unprecedented pace. Renewable energy, next generation semiconductors, AI/ML analytics, driverless cars, automated homes, the list seems to be endless –rapid advancements in the software driven space will continue to have a profound impact on the global community for years to come.
